

Dear Friends,

It has been a while since Laurel House has checked in with congregation, and we wanted to take a moment to share an update on the important work being done in our community.

Over the past year, our dedicated staff and volunteers have been busier than ever providing compassionate end-of-life care to residents and their families. In 2025, Laurel House experienced its busiest year since opening, serving 58 residents and supporting countless family members through one of life's most difficult journeys.

The need for our services continues to grow. Thus far in 2026, we have already served 27 residents, and we remain busy caring for members of our community. Each resident who comes to Laurel House receives individualized care in a peaceful, home-like environment, surrounded by dignity, comfort, and compassion.

We are grateful for the continued support, prayers, and generosity of congregations throughout our community. Because Laurel House is supported through donations, fundraising efforts, memorial gifts, and community partnerships, we are able to continue our mission of providing care and comfort when it is needed most.

We are also pleased to share that Angels Attic remains open and continues to be an important source of support for Laurel House. Through donations, shopping, and volunteer efforts, Angels Attic helps provide funding that directly supports the care and services offered to our residents and their families.

As we continue this important work, we ask that you keep Laurel House, our residents, their families, our volunteers, and our staff in your prayers. Your prayers, encouragement, and support mean so much to everyone who walks through our doors.

Thank you for helping make this work possible. Your support allows us to open our hearts and our home to those facing the end of life and to provide comfort to the families who love them.

With gratitude,

**Laci Graham, LPN
Executive Director
Laurel House Comfort Care Home**

"Providing compassionate care, comfort, and dignity for residents and their families during life's final journey"
